

PROJECT PROPOSAL

Techlight Ute Branding – Design & Production Management

PREPARED FOR

Techlight (techlight.com.au)

DATE

28 April 2026

1. Project Objective

Digital Response will design, oversee, and manage the end-to-end production of the branded vinyl wrap for the Techlight fleet, beginning with the 2023 LDV T60 Dual Cab Ute.

2. Scope of Work

Phase A: Design Development & Visualisation

- Development of high-resolution perspective concepts (Sides and Bonnet views only).
- Refinement of graphics based on brand guidelines to ensure visual performance at speed and in varied lighting.
- Presentation of visual proofs for internal approval.

Phase B: Production Management & Sourcing

- Preparation of a comprehensive Request for Quote (RFQ) package.
- Liaison with 3 pre-vetted signage/printing suppliers in the Brendale area to obtain competitive quotes.
- Technical review of supplier proposals to ensure compliance with material specifications (Cast Vinyl, Satin/Matte finish).
- Client recommendation for final supplier selection.

Phase C: Pre-Press & Production Support

- Creation of print-ready, high-resolution vector files (.AI / .EPS / .PDF) mapped to the exact template dimensions of the LDV T60.
- Ensuring file integrity, bleed, and colour matching against the Techlight brand palette (per techlight.com.au/techlight-branding.html).

Phase D: Quality Control & Sign-off

- Review of supplier pre-press proofs.
- Oversight of test prints/mock-ups (if required by the supplier).
- Final sign-off of artwork before production commences.
- Post-installation visual quality audit.

3. Financial Proposal

All design, management, and pre-press work is billed at an agency hourly rate of \$200 + GST.

Service Category	Estimated Hours	Total (Ex. GST)
Concept Design & Visualisation	4 hrs	\$800.00
Supplier Sourcing & RFQ Management	3 hrs	\$600.00
Print-Ready Vector Artwork Setup	4 hrs	\$800.00
Proofing, Revisions & Supplier Liaison	3 hrs	\$600.00
Estimated Agency Total:		\$2,800.00

External Supplier Estimate (Vinyl Wrap & Installation):

Please note: The physical printing and installation of the vehicle wrap is a third-party hard cost billed directly by the selected signage supplier. Based on industry standards for a partial cast vinyl wrap on a dual-cab ute of this scope, we estimate the supplier cost will be between **\$1,800.00 and \$2,400.00 + GST**.

4. Project Process

- 1. Concept Approval:** Client signs off on the side and bonnet design concepts.
- 2. Tendering:** Digital Response issues the RFQ to three suppliers. We review quotes and provide a recommendation.
- 3. Vectorisation:** Once a supplier is selected, Digital Response prepares print-ready vector files (.AI/.EPS) specifically mapped to the supplier's required templates.
- 4. Proofing:** Supplier provides a digital pre-press proof. Digital Response reviews for technical accuracy (bleed, alignment, branding consistency) and provides final written approval.
- 5. Installation & Completion:** Supplier completes the installation. Digital Response performs a final visual quality check to ensure the output matches the approved concept and brand guidelines.

PRODUCTION MANAGEMENT

Supplier Shortlist & RFQ Documentation

A. Preferred Supplier Shortlist (Brendale)

We have identified the following three high-quality wrap companies located in Brendale, offering convenient access for travel between Murrumba Downs and Chermside.

1. Procloud Signage

Highly rated local commercial signage experts with a strong focus on corporate branding and fleet vehicle wrapping.

Address: 10/193 South Pine Rd, Brendale QLD 4500

Phone: 1300 722 659

Website: procloudsignage.com.au

2. Signarama Brendale

Part of a trusted national network with a dedicated commercial production facility. Highly experienced in translating agency designs to exact vehicle templates.

Address: 3/24 Leonard Crescent, Brendale QLD 4500

Phone: 1300 721 491

Website: signarama.com.au

3. Elite Autostyling

Specialists in premium vehicle aesthetics and high-end commercial wraps. Known for meticulous attention to detail and long-lasting cast vinyl installations.

Location: Brendale / North Brisbane area

Phone: 0447 777 928

Website: eliteautostyling.com.au

B. Technical Handover Requirements

Upon supplier selection, Digital Response will provide the chosen vendor with:

- **Vector Files:** 100% scalable vector artwork (.AI, .EPS, or Vector .PDF).
- **Colour Space:** CMYK colour profiles, with Pantone (PMS) matches for Techlight Teal and Deep Blue.
- **Typography:** All text outlined (converted to curves).
- **Unflattened Layers:** Clean layer structures for their pre-press team to map onto 1:1 vehicle templates.
- **Visual Guide:** Finalised mock-ups (Sides and Bonnet) as reference.

C. Draft Email: Request For Quote (RFQ)

The following email will be dispatched to the shortlisted suppliers to obtain competitive pricing:

Subject: RFQ: Fleet Branding Installation - Techlight (2023 LDV T60)

Hi [Supplier Team],

I am reaching out from Digital Response on behalf of our client, Techlight. We are seeking quotes for the professional supply and installation of a partial vehicle wrap for their new fleet, starting with a 2023 LDV T60 Dual Cab Ute.

The visual design concept has been finalised by our agency. We are looking for a reliable local partner in Brendale to handle the template mapping, printing, and professional installation.

Vehicle Details:

- Make/Model: 2023 LDV T60 Dual Cab Ute
- Base Paint: Grey

Technical Specifications:

- Material: Premium-grade Cast Vinyl only (e.g., 3M, Avery, or Arlon).
- Finish: Satin or Matte finish is required (no gloss).
- Application Guidelines:
 - Continuous two-tone sweep from the front bumper, through lower doors, to the rear quarter.
 - Logo/wordmark placement: Driver/Passenger doors (horizontally centred), Tailgate (centred, mid-height), Bonnet (full Techlight logo, horizontally centred), Tray cover (centred).
 - Maintain 15-20 mm clearance from all door edges, handles, and panel seams. Do not bridge moving panels.
 - Number Plate: Custom QLD plate required (as per mock-ups).

Files: Digital Response will supply fully outlined, CMYK, print-ready vector files (.AI/.EPS) and high-res visual mock-ups once a supplier is selected.

I have attached the visual design concepts to this email for your reference (Sides and Bonnet views).

Could you please provide an itemised quote including:

1. Artwork Setup/Pre-press costs (mapping our vectors to your exact 1:1 LDV T60 template).
2. Materials cost (Cast Vinyl + transfer tapes).
3. Installation Labour (Cleaning, prep, application).
4. Turnaround Time (Days the vehicle needs to be off-site at your facility).

Please let me know if you need any further information to provide an accurate estimate.

Best regards,

[Your Name]
