20th July 2024

Dear Peter,

We thank you for the opportunity to provide this proposal and quotation. We have based our prices on the following specifications:

Description

Price Excl. GST

Radix Timesheet Importer Update V1.2 (16 hours x \$160)

\$2,560

Email Attachments Enhancement:

Where a row has [ATTCH: 3] capture the number and then add 3 rows underneath for email attachment (.msg)

Upload/Item Date for each new row to be same as parent

DocID to be same as parent with a colon and number to indicate which row it is like 12345: 1 etc. and this will enable full traceability in the YYYY_ImportLogs

As there is no SQL relationship between the added rows and the parent use Upload Date & Matter Reference as these will be the same and are unique

If the parent email has already been imported it will be assumed that the attachments have been also

Heinz mockup:

(RTI) Radix Timesheet Importer Version 1.1

Author: Peter Carter From Date: Monday, 29 April 2024 To Date: Monday, 29 April 2024

Upload CSV Import Timesheet

Finalise changes: Uncheck All Check All

Results: Process

Upload Date	Item Date	Matter Reference	Title

Create a new Filter for Task Type

Get items from SQL dynamically so that we don't need to write a new version of the code to get a new Task Type

```
SELECT DISTINCT TaskType FROM  
[PracticeEvolve_doc].[dbo].[SSRS_RadixTimesheetEntries_v2]
```

UI Issues with Clicking off Cells when editing and then scrolling

Need to tell the Importer to lose focus when scrolling so that the cell doesn't scroll with everything else

Remove Upload Date from Finalise Changes and Results grids

	Total Excl. GST	\$2,560
	GST	\$256
	Total Incl. GST	\$2,816

Terms & Conditions

- Quote valid for 1 month
- Invoiced on completion with 2 week terms

Yours Sincerely,

Peter Bardenhagen
